

SAURABH HARDEL

Full Stack Developer

saurabhhardel5286@gmail.com | saurabhhardel.me | Durg, Chhattisgarh

ABOUT ME

Results-driven Full Stack Developer with expertise in building secure, scalable, and high-performance web applications using the MERN stack (MongoDB, Express.js, React.js, and Node.js) + AI. Experienced in delivering end-to-end solutions for startups, agencies, and enterprise clients, with a strong focus on clean architecture, performance optimization, and exceptional user experiences.

Passionate about creating innovative digital products that drive business growth and operational efficiency. Open to freelance engagements, contract opportunities, and full-time roles.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Python, Java, C++, C, PHP, Prolog
- **Frontend Development:** React.js, Next.js, HTML5, CSS3, Tailwind CSS, Flutter
- **Backend Development:** Node.js, Express.js, REST APIs, JWT Authentication, Socket.io
- **Databases:** MongoDB, Mongoose, PostgreSQL, Firebase, Supabase
- **Cloud & DevOps:** Azure, GitHub, Vercel, Render, CI/CD, Git, Cloudinary, Stripe
- **AI & Automation:** Google Gemini AI, n8n, AI Chatbots, Web Scraping
- **Tools:** VS Code, Postman, Figma, Photoshop, Stitch

EDUCATION

Chhatrapati Shivaji Institute Of Technology — Durg, Chhattisgarh

2023 – 2027

Bachelor of Technology (B.Tech) – Computer Science & Engineering | 2023 – 2027

Govt. Hr. Sec. School Anda — Durg, Chhattisgarh

2021 – 2023

- Higher Secondary Certificate (HSC) – Mathematics | Class of 2023
- Secondary School Certificate (SSC) – Science | Class of 2021

WORK EXPERIENCE

MERN Stack Developer Intern — Zyneralifesciences

Jan 2026 – Mar 2026

- Built, optimized, and deployed a production-ready web platform for a pharmaceutical enterprise.
- Implemented custom SEO optimization strategies and designed a fluid, fully responsive UI architecture.
- Integrated automated email notifications and secure contact management systems to streamline client communication.

AI & ML Intern — CODEC Technologies

Jan 2026 – Feb 2026

- Applied advanced machine learning algorithms to process and analyze real-world datasets.
- Developed AI-powered automation features and generative AI integrations within dynamic web applications.
- Researched emerging generative AI models to implement intelligent, context-aware user interactions.

MERN Stack Developer Intern — Soft Nexis Technology

Feb 2026

- Developed scalable full-stack web applications utilizing MERN stack architecture.
- Collaborated on efficient database design, query optimization, and REST API development.
- Designed and implemented secure, token-based authentication (JWT) and authorization mechanisms.

Java Backend Developer Intern — Main Flow Services and Technology

Jan 2026 – Mar 2026

- Designed, documented, and deployed Java-based backend services and RESTful APIs.
- Worked closely with database integrations, improving query speeds and backend efficiency.
- Participated actively in Agile/Scrum workflows, sprint planning, and collaborative peer code reviews.

MERN Stack Developer Intern — Seed IT Solutions

Jul 2025 – Oct 2025

- Engineered clean-code, scalable web applications emphasizing intuitive UI/UX principles.
- Integrated modern third-party APIs and processed transactions securely via Stripe payment gateway.
- Maintained, debugged, and refactored legacy codebases to improve rendering speeds and performance.

- Participated in an intensive, industry-aligned training program in MERN stack architectures.
- Designed, built, and deployed an end-to-end web application as a capstone project.
- Practiced modern software development methodologies, version control practices, and deployment pipelines.

FEATURED PROJECTS

Zyneralifesciences – Modern Pharma Platform

[Live Site](#)

Mern Stack

- Designed and deployed a professional corporate website featuring a dynamic medical information system.
- Integrated automated contact management tools and high-deliverability email systems for client inquiry handling.

Deshmukh Shoe Center – Client Retail Portal

[Live Site](#)

Mern Stack

- Created a production-level e-commerce catalog application for a brick-and-mortar retail business.
- Implemented high-fidelity responsive galleries, active product filtering, and a lightweight inquiry intake pipeline.

Gocart – End-to-End E-Commerce Engine

[Live Site](#)

MERN Stack, RazorPay, Stripe

- Developed a feature-rich online storefront with fully responsive navigation and global state management via Redux.
- Integrated a secure checkout flow using the Stripe API, alongside order tracking and inventory updates.
- WhatsApp Clone – Real-Time Mes

WhatsApp Clone – Real-Time Messaging Platform

[Live Site](#)

MERN, Socket.io, WebRTC

- Developed a feature-rich online storefront with fully responsive navigation and global state management via Redux.
- Integrated a secure checkout flow using the Stripe API, alongside order tracking and inventory updates.
- WhatsApp Clone – Real-Time Mes

OTHER SELECTED DEPLOYMENTS & APPLICATIONS

- Instafame (Instagram Clone): Full-featured social environment with JWT auth, likes, comments, and interactions. | [Live Site](#)
- Eco Guard Reporter: Environmental platform mapping incidents with geo-location and Cloudinary file uploads. | [Live Site](#)
- Study Materials App (B.Tech Year): Academic material sharing portal built for engineering peers. | [Live Site](#)
- TalentGrow : Peer networking and competitive examination mock engines. | [Live Site](#)
- Grocery Store (Green Cart) & Forever: Multi-platform retail apps using React/Node.js stacks. | [Live Site](#)
- Smriddhi – Educational Portal : A mern stack website for students to find correct roadmaps, study materials, courses and lots of features. | [Live Site](#)

ADDITIONAL CERTIFICATIONS

AI & Cloud Architectures

- Gemini for Google Workspace (Google Cloud)
- TATA AI-Powered Gen-AI
- Freedom with AI Masterclass
- AI for Beginners (HP Life)

Software Engineering & Systems

- MERN Stack Development (Mindluster)
- React Development (GreatStack)
- JavaScript Fundamentals (GreatStack)
- Programming in Java (Mindluster)
- Web Development Training
- Python Web Scraping (Scraper API)

DevOps, Cybersecurity & Management

- Azure Fundamentals (Simplilearn)
- DevOps Foundations (Simplilearn)
- Cyber Security Program (IIT Bombay)
- Google Student Ambassador
- Campus Ambassador (Unstop Academy)
- Effective Resume & Cover Letter (TCS)

KEY ACHIEVEMENTS

- **Proven Scale:** Successfully designed, built, and deployed 15+ full-stack web applications to public cloud host environments.
- **Client Deliveries:** Successfully managed client-facing lifecycles to deploy active, production-grade business websites.
- **Versatile Practitioner:** Completed 6 professional internship terms across MERN, Java, AI Automation, and Machine Learning.
- **Leadership:** Selected to represent Google's developer initiatives as a Google Student Ambassador.
